SUMMARY

Ambitious Flutter developer with a strong passion for crafting innovative, user-friendly mobile applications. Proficient in Dart programming language, UI/UX design principles, and API integrations. Skilled in managing local databases and collaborating effectively in team environments to deliver scalable, dynamic solutions.

WORK EXPERIENCE

Flutter Developer Intern | Rootments Enterprises LLP Edapally **Dec 2024 - Apr 2025**

- Building an innovative application focused on redefining wedding culture by integrating sustainable and elegant rental solutions.
- Collaborating with cross-functional teams to design, develop, and deploy mobile app features.
- Ensuring high-quality code standards and smooth user experience through iterative testing and debugging

Flutter Developer Trainee | Luminar Technolab Kochi **June 2024 - Nov 2024**

- Managed project timelines, reducing delivery times by 30%.
 - Spearheaded the adoption of cutting-edge engineering software, improving project accuracy by 15%.
 - Collaborated with cross-functional teams, enhancing project success rates by 10%.
-

EDUCATION

Bachelor of Computer Applications **Nov 2021 - May2024**

Mahatma Gandhi University Kottayam
Jawaharlal Nehru Institute of Arts and Science
Balagram, Idukki, Kerala

PROJECTS

Task Reminder App

- A Flutter application developed for efficient task management by storing reminders locally using SQLite.
- Implements Flutter Local Notifications to provide timely alerts and enhance user engagement.
- Technologies Used: SQLite, Flutter Local Notifications, Dart, RESTful APIs
- GitHub: Task Reminder App

ERGUO – Service Booking & Management App

- Developed a full-featured mobile app with role-based access for Admin, Users, and Workers.
- Integrated Firebase Authentication for secure login/registration and Firestore for user/worker data storage.

- Implemented Supabase Storage for uploading worker profile images.
 - Designed intuitive UIs for user registration, login, worker registration, booking, and admin panel using Provider for state management.
 - Added Google Maps and location access for worker geotagging.
 - Real-time data syncing and role-based dashboard redirection.
-
